

“After problems with our previous caterers we decided to look for a new supplier who would offer good quality food cooked on site. We were recommended Caterlink by a local secondary school and invited a representative to come a talk to us.

We were impressed straight away by the professionalism and service that they could offer our school, and we commenced our contract with Caterlink in January this year.

The quality of the food is exceptional, the menus offer a varied selection and the children ‘love their yummy new dinners’.

Caterlink has supported Denfield Park Primary School by providing high quality termly menus for parents, marketing literature; they have run assemblies, tasting sessions for children during lunch time and a tasting session for parents after school. Our hot dinner uptake has already increased significantly for both children and staff.

The service that Caterlink provide to us is ideal and suits the school, the children and our parents.”
